EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in an interview with Pascale Hair on 21 June 2007.

The application has been amended as follows:

- Claim 1, line 13: Changed "elaongate" to -- elongate --.
- Claims 3-7, 9-30 and 32-49 are cancelled.

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance for this claim is the inclusion of the limitations of a removable printhead assembly comprising a full width printhead with an elongate casing; a rail mounted within the printer, the elongate casing and the rail having complementary external features extending longitudinally along each such that inserting the printhead into the printer requires an end of the elongate casing to engage an end of the rail via the complementary external features in order to slide along the rail into operative position within the printer; and the printhead being supplied with the different inks through tubes which can be disconnected so the printhead may be removed longitudinally with respect to the rail until the complementary external features on the rail and the elongate casing disengage.

It is these limitations, either alone or in combination as claimed, that have not been taught, found, or suggested by prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
